essentials

A destination for its refreshing collection of products pleasing to both the eye and the environment, Twelve Chairs is guided by good style and a strict checklist of eco requirements (called the People and Planet Principles) that products must meet to be stocked in the store. While easy to leave with full hands (and a light conscience), we exercised serious self-control to share our favorite finds. • Twelve Chairs, 319 A St., Boston; 617-701-3496, twelvechairsboston.com.
